Spring Program/Graduation

Thank you to everyone who came to support the school at the special program on Tuesday evening. We are so proud of our young people and pray they will always choose to follow in His footsteps!

Prevent Summer Slump

A vacation is good for all of us, but let's not stop learning over the summer, okay? Visit our school library or the city library and find some great books to do a little reading every day. Whether you travel afar or stay close to home, there are new things to see, do, and experience. I can't wait to hear the things my students learn this summer.

If anyone is interested in a neat resource for summer learning, check out these summer bridge activity books on Amazon. They cost about $10 and are available for any grade. They are paced to have one page per day with a little bit of every subject mixed together.

Spring Picnic

What fun it was to eat and play together with our church and school family. Thank you to everyone who came out and joined in the fun.

Upcoming Events

Mon., June 20	Preregistration for next year
Mon., Aug. 15	First Day of School
