KIDS' HEALTH AND SAFETY FAIR

On Thursday, May 9, the Southwestern District Health Unit will hold its 11th annual Kids' Health and Safety Fair. The event provides health and safety education along with fun activities for parents and families and will be held from 3-6 pm at the West River Ice Center. You are encouraged to dress up as a zoo animal or your favorite costume. It is free for kids and families.

SUMMER CAMP

The theme for this year is "Free Indeed." Registration is open online.

EDUCATION SABBATH

We appreciated the opportunity to practice our leadership skills by leading out at church last Sabbath. It took many hours of practice, but the students did a wonderful job and represented their school well. The theme was hymns of our faith, and the upper grade students took turns sharing the back stories to several of our favorite hymns. Then everyone helped lead the congregation in singing the hymns.

WEEK OF PRAYER: INFINITE VALUE

Thank you, Pastor Jason, for spending a significant amount of time with us this week sharing about who Jesus is and how important each person is to Him.

Top Right: Students practice a new drill for floods, because you know, April showers bring....April fools!

Bottom Right photos: Did you know that students as young as age 10 can perform deep enough compressions to save a life? Studies have shown that teaching elementary students simple CPR can double the survival rate from out-of-hospital cardiac arrest. While we didn't actually perform full compressions, the students were coached in the technique as well in using the AED and first steps to help someone in a life threatening situation.
