**Francisco Javier**

Monthly Pledge: \$30  
Offerings this week: \$27  
Offerings for Mar: \$30 April: \$4.97  
**Thank YOU!!**

## Spring Week of Spiritual Emphasis

Mr. Burr has met with us each day this week and some days more than once to share his love for God and His creation with us. Mr. Burr has a ministry entitled, "The Heavens Declare" which airs regularly on 3ABN. He also makes presentations in person all across the United States and around the world. He invented the first binocular telescope, and has sold some of his telescopes to NASA. You won't want to miss his final meetings presented on Sabbath at 10:40 am and 2 pm. Please spread the word and invite your friends and neighbors.

I asked several who were at the meetings this week to share what they learned or enjoyed most about the presentations:

**Roper:** My favorite things are the pictures of the nebulae. They are the most beautiful things I think.

**Boen:** I've always been excited about outer space stuff. I've always wanted to travel really fast.

**Ebnay:** I liked the sombrero galaxy because it looks like a hand and it's also called M104. It's 30 million light years from us. It's the galaxy closest to the Milky Way.

**Maria:** I liked the ant nebula because of the pretty colors. I learned the sun is a big star.

**Autumn:** I like how many different nebulae there are. It's neat that the sun moves and the planets all follow it around.

**Fortunate:** I like the eagle nebula because I like eagles. I think it's neat that there are so many stars and the stars are hot. God is a good creator.

**Mosheh:** I thought nebulae were like galaxies; I didn't know they were like dust. I liked the video that was taken by the Hubble telescope. It showed all the stars zooming by.

**Zack:** I thought it was pretty interesting about the horsehead nebula (if a person drove 1,000 miles every day for 104 years she would only get a tiny ways across) and how small it was compared to the rest of the cloud.

**Milo:** There are "little suns".

**Alyna:** There are colorful stars.

**Katelynn:** The sun is a star.

**Samantha:** The stars get bigger.

**Josiah:** The stars are huge and massive.

**Savannah:** There are different colors on the planets.

**Jacob:** There are four different kinds of nebula.

**Brianna:** The stars explode.

**Ms. Hay:** The sun is spiraling and wobbling through space, pulling the planets with it.

**Mrs. Wright:** Our earth seems so huge to us yet is SO miniscule compared to the rest of the universe. It blows my mind that the God who created and controls all this amazing, beautiful, precisely-controlled universe knows each of us personally and gave up His throne to come down and be one of us. Amazing love.

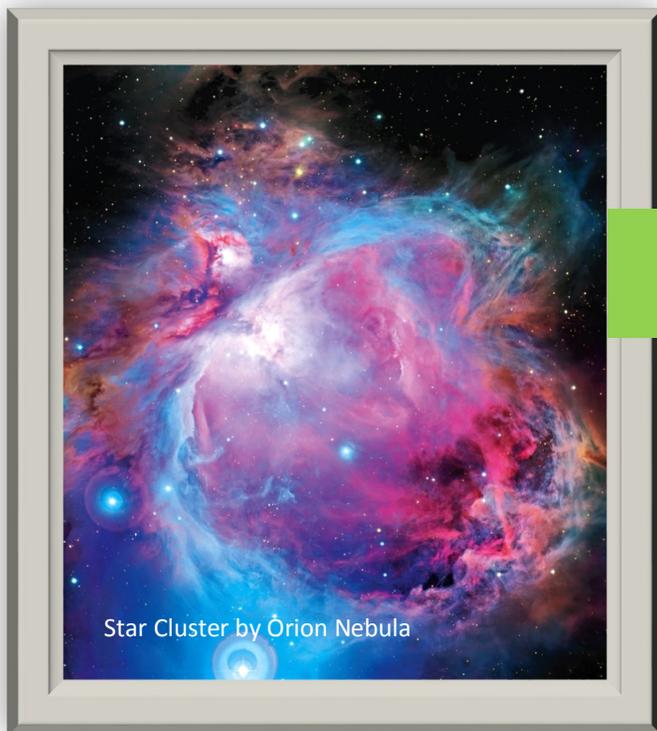

## Education Sabbath II

This Sabbath is officially Education Sabbath for the Dakota Conference. We are blessed to have it coincide with our Week of Prayer speaker. However, *several* folk have inquired as to whether we are going to still do an education Sabbath like we did last year in which the students do the whole service. So we will have a second education Sabbath on April 27 in which the students and staff of IHAS will have the entire service. Please plan to be there as each student has a part to play.

## Amen Pantry

Thanks to those who have generously donated items for our upcoming visit to Amen on April 23. We will be happy to take more, but it's already going to be a great haul to take to share!

*When I gaze into the night sky and see the work of Your fingers;  
The moon and stars suspended in space—  
O, what is man that You are mindful of him?  
You have given man a crown of glory and honor,  
And have made Him a little lower than the angels.  
You have put him in charge of all creation:  
the beasts of the field, the birds of the air, the fish of the sea.  
O, what is man that You are mindful of him?  
O, Lord our God, the majesty and glory of Your name  
Transcends the earth and fills the heavens.  
O Lord, our God, all the angels praise You perfectly,  
And so would we, and so would we.*

amazing God

**HOT**  
LUNCH

Wednesday, April 17: NO HOT LUNCH

Wednesday April 24: NO HOT LUNCH

### Chuckle Bits

Q: What do you call a belt with a watch on it?

A: A waist of time

### Educating for a Life of Service

**Amen Pantry Needs:** condiments, tomato paste, cake & muffin mixes, pinto beans, chili beans, feminine products, toiletries, canned vegetables, soup, crackers, chips, Kleenex, toilet paper

### Words to Live By

“I would rather be what God chose to make me than the most glorious creature that I could think of; for to have been thought about, born in God's thought, and then made by God, is the dearest, grandest and most precious thing in all thinking.”  
— George MacDonald
